RACE NUMBER / BIB

Participating in the race using another participant's race bib or name may result in disqualification and/or a ban from future events organized by the Organizer.

The official race bib must remain fully visible throughout the race and must be attached to the front of the body, on the participant's upper-body clothing. The timing chip (B-Tag) is attached to the back of the bib.

The bib must not be folded, crumpled or covered by a jacket, running belt, water bottle or any other item. An incorrectly positioned or covered bib may prevent split times and the finish time from being recorded and may prevent the participant from being included in the results.

A lost race bib must be reported to an official immediately after the race. A result may be confirmed after the available timing records have been checked and completion of the entire prescribed course has been verified.

Transferring a registration or race bib to another person is not permitted. The Organizer assigns each bib to a specific participant. Race bibs must not be transferred, duplicated or altered.

A race bib is required to enter the start area.

You MUST NOT:

1. Sell or purchase another person's race bib, or run using a bib registered to another person.
2. Alter or duplicate a race bib, or allow another person to do so.
3. Participate using an unofficial bib or a bib that has not been assigned to you by the Organizer.
4. Participate in the race without a valid registration and race bib.

If any of the infringements listed in points 1–4 are established, the Organizer reserves the right to disqualify the participant and prohibit them from participating in future events organized by the Organizer.

If a participant withdraws, the entry fee will not be refunded, and the registration cannot be transferred to a subsequent edition or another event.

RACE START

The race starts with the firing of a starting pistol, unless otherwise announced. All participants must remain behind the start line and follow the instructions of the starter and other officials.

OFFICIAL RACE TIMING

Official times and rankings, both overall and by age category, are determined by the time elapsed between the starting signal and the participant crossing the finish line (GUN TIME).

Net time (CHIP TIME) is measured from the moment a participant crosses the start line until they cross the finish line and is published as additional information.

COURSE AND COURSE MARKINGS

Participants must remain within the marked course throughout the race. The course is marked with barriers, traffic cones, lines and/or other markers. Kilometer points, junctions, turns and refreshment stations are marked along the course.

Participants must follow course markings and comply with the instructions of judges and other officials. Failure to follow the markings and instructions may result in disqualification.

Medical assistance is deployed at all races in accordance with the Organizers' plan.

RACE COMPLETION

Participants' passage through official checkpoints is recorded by the electronic timing system.

A participant who withdraws or does not complete the entire race will be recorded as DNF (Did Not Finish). Confirmed course-cutting or other breaches of the rules may result in disqualification (DQ).

Missing or unusual split times will be reviewed before a decision is made regarding a result or disqualification. A participant who withdraws may not rejoin the race to obtain a placing or assist another participant.

Unofficial pacers and other unregistered persons are not permitted on the course or allowed to provide assistance to participants.

Time limits by race

Race	Time limit
Half Marathon	3 hours
10 km	1 hour 30 minutes
5 km	45 minutes

Participants who do not finish within the time limit must follow officials' instructions, leave the secured section of the course and move onto the pavement or another safe location.

Once the time limit has expired, the scheduled course safety arrangements end, and refreshment stations and other race services are no longer guaranteed.

Participants who continue outside the official race duration must comply with traffic regulations and the instructions of the relevant authorities.

Participants outside the time limit are not permitted to cross the finish line and will not receive an official finish time.

COURSE SAFETY AND TRAFFIC MANAGEMENT

The race course will be clearly marked, and traffic will be managed in cooperation with the relevant services, including volunteers, security personnel and others.

MEDICAL SERVICES AND PARTICIPANT RESPONSIBILITY

The Organizer provides medical services along the course and in the start/finish area. An authorized medical representative may instruct a participant to withdraw from the race if there is a risk to their health.

By registering, participants confirm that they understand the physical demands of their chosen race, consider their health suitable for participation and have undergone a medical examination beforehand where required by their health condition.
